Protection & Gloss values when used with Clean and Protect

**POWERFUL CLEANER** – Rapidly removes compound and masking tape residues, fingerprints and dust – but also harsher contaminants such as birdlime – from paint, glass, rubber and plastics.

**GLOSS ENHANCER** – Creates a friction-free layer enhancing clarity and the depth of glossy surfaces.

**PROTECTIVE BARRIER** – Adds a silicone-free layer of protection to the surface which provides long lasting water beading and easy-clean properties.

## HOW TO USE CLEAN AND PROTECT

Clean and Protect is versatile and can be used on all paints\*, gelcoats, glass, trims, rubbers and plastics. Can be used on satin and matt finishes, as well as gloss paintwork.

*\* on the flattest of matt finishes, exercise caution and test first on an inconspicuous area.*

1. Spray liberally onto the surface.
2. Use a clean, microfibre cloth to immediately wipe off polishing residues, glue lines etc.
3. Using a 2<sup>nd</sup> clean, dry microfibre cloth, buff the surface.

- *For tougher contamination like birdlime, allow the product to dwell for a few seconds before wiping.*

- *If left and dried on the surface – wet with more product.*

## TECHNICAL INFORMATION

Appearance	Opaque Blue/White
VOC Content	≈ 0 g/L
Relative Density	1
pH	8.7
